

PROMPT 1:

I am building a sales page on [platform].

I need to get clear on my offer to build my sales page. Ask me these questions ONE AT A TIME and wait for my answer before moving on.

1. What is the name of your offer?
2. What does someone get when they buy it? (Be specific — format, deliverables, how long, how it's delivered)
3. What are the price points?
4. Who is this for? Describe the specific person — what they do, what stage they're at in their business or life.
5. What is the #1 problem your offer solves?
6. What does life look like BEFORE someone buys — what are they struggling with, losing, or missing out on?
7. What does life look like AFTER — what changes, what gets easier, what becomes possible?
8. What result have past clients or customers gotten? Give me real numbers, real outcomes, and testimonials if you have them.
9. What is the most common reason someone hesitates before buying?

PROMPT 2:

Refine all my responses please

PROMPT 3:

I want proper branding and then instructions to build this page on [PLATFORM]

PROMPT 4:

Keep the design simple but on brand for me so I can bring it to my platform

PROMPT 5:

I'm not tech savvy. Please take into account as you give me these instructions and give me a simple design that is very easy to bring to my platform
